

BlackXcite
creates energy
savings up to
20%.
A device with
analog
technology
that is not
dependent
on supply
bottlenecks in
the electronics
industry

Power IN

BlackXcite

Power OUT

Switch board mains power supply

400V max. 36A 50Hz

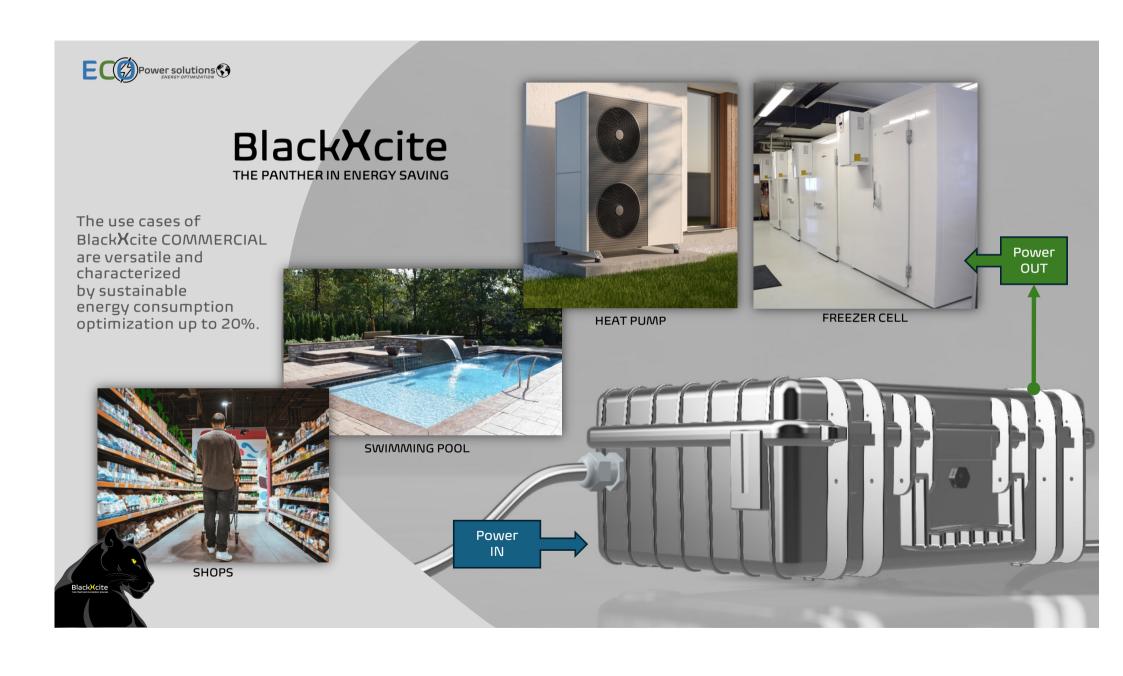

Commercial, automotive or industrial device

> 400V max. 36A 50Hz

## BlackXcite

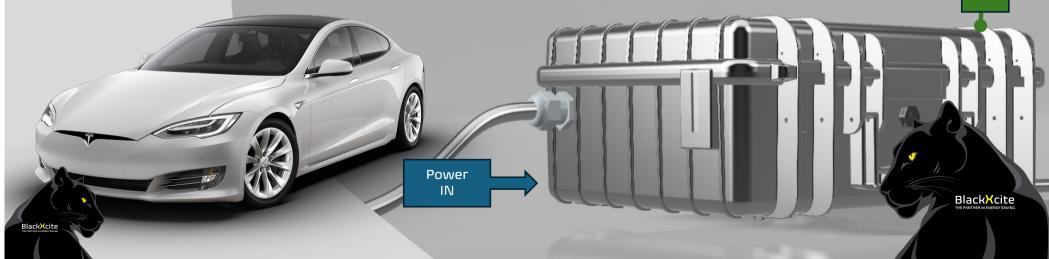

THE PANTHER IN ENERGY SAVING

"You can recognize a really good idea by the fact that its realization seems impossible from the beginning!"

BATTERY RECOVERY ENERGY OPTIMIZER RANGE EXPANDER BlackXcite - EV CHARGING ENHANCEMENT

Connected before the EV-charger unit!

Albert Einstein

## PROJECT REFERENCE FREEZER CELL - AUSTRIA

VIESSMAN FREEZER CELL FOR PET FOOD

DANFOSS COMPRESSOR

BlackXcite

An energy consumption optimization of 20%+ was demonstrated.

## PROJECT REFERENCE EV-CHARGING - AUSTRIA

TYPE OF CHARGING	DATE	Km range lost in 24h	Battery discharged in days
Car collected	23.05.2022	27,61	13
Standard Charger	26.05.2022	39,86	9
Black <b>X</b> cite Power	30.05.2022	8,39	43
Black <b>X</b> cite Power	04.06.2022	8,84	41
Black <b>X</b> cite Power	08.06.2022	7,95	45
Black <b>X</b> cite Power	16.06.2022	6,42	56
Black <b>X</b> cite Power	19.06.2022	4,35	83
Black <b>X</b> cite Power	11.08.2022	2,43	148

After 6x charging with **BlackXcite** the battery discharge days increased from **9 to 148** days!!

After multiple charging with **BlackXcite** the Range expanded from **307Km to 360Km!**
