

# INSTRUCTIONS

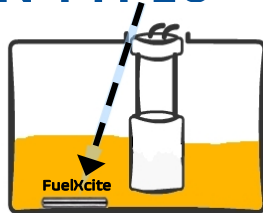

## FuelXcite

FOR SMALL PETROL OR  
 CONVENTIONAL DIESEL ENGINES

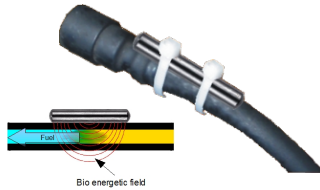

### INSTALLATION TYPES

**Tank installation**  
 with ECOPower FuelXcite **TYPE S** for MOPED, SMALL MOTOR BIKES, TUK TUKS, BOATS, CHAIN SAWS, LAWN MOWERS, AND LAWN TRIMMER

**Line installation**  
 for Diesel Cars and SUV's with ECOPower FuelXcite **TYPE M and Mp.**

### FOR BEST RESULTS

**Tank installation** provides the best contact to the fuel. The FuelXcite should stay on the bottom of the tank after installation.

The best FuelXcite **Line installation** location for cars shall be a section of the Diesel fuel line with very low insulation thickness!

### APPLICATION
